The previous year was highlighted by the fact that the Company completed all the statutory formalities for listing its securities on the bourses. The Company became a listed entity on April, 2013. The key demand drivers of the housing finance segment are population growth backed by favorable demographics, acute shortage of housing stock, increasing urbanization and rising affordability levels. The Company is a prominent player in the housing finance segment in Southern India. Its unique proposition is that it caters to the niche of self employed category where there is abundant growth opportunities.

The Company's competitive strengths are direct customer contact, transparency, speed of operations, robust risk management systems and focus on under penetrated markets.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

ECONOMIC OVERVIEW

Indian Economy faced challenging conditions in 2012-13 registering an estimated GDP growth of around 5%, the lowest in the past decade. This downward spiral was precipitated by domestic policy uncertainties, weaker consumption owing to persistent high inflation and sharp slowdown in investments. Global worries such as slow US recovery and falling demand from China also added to consumption and investment pessimism.

However, inflation showed some signs of moderation during the year, giving room to Reserve Bank of India (RBI) for policy rate cuts to accelerate investment and stimulate economic growth. The headline wholesale price index in FY13 averaged 7.4% as compared to 9.6% in FY11 and 8.9% in FY12. Thus, with the view to improve liquidity and boost growth, the RBI cut repo rate by 100 basis points in 3 tranches to 7.5% by March 2013. Further, the cash reserve ratio (CRR) was cut by 75 basis points to 5% and the statutory liquidity ratio (SLR) by 100 basis points to 23% during the year. Subsequent to this, due to depreciation in the rupee value against the dollar, RBI has not made any changes to the key rates

SECTOR OVERVIEW

The demand for housing loans remain robust in India driven primarily by growing population, rapid urbanization and rising aspirations of people. As per 2011 Census estimates, the percentage of urban population has increased from 28% in 2001 to 31% in 2011. However, urban development has not kept pace with this growth and resulted in land shortage, congestion and slum development in most cities. The urban housing shortage at the end of 11th five year plan was estimated at 18.7 million units (Source: Ministry of Housing and Urban Poverty Alleviation).

The acute shortage of housing units, coupled with low mortgage penetration is likely to keep the home loan demand high and rising. Mortgage penetration is very

low in India (10%) compared to advanced economies (US: 81%, UK: 88%) and also its Asian counterparts (Thailand: 17%, China: 20%, Malaysia: 29%, Singapore: 32%).

The home loans demand has been supported by various fiscal incentives. In Budget 2012-13, the government announced various measures to push affordable and small ticket housing:

Additional one-time reduction of Rs.1 lac for first time home owners provided the loan amount and the property cost do not exceed Rs.25 lacs and 40 lacs, respectively.

Provisions under Rural Housing Fund have been enhanced from Rs. 4,000 crore to Rs. 6,000 crore.

ECBs to the tune of \$1 billion allowed for low cost affordable housing projects. Also, the rate of withholding tax on interest payment on ECBs was reduced to 5% from 20% earlier on exposure to affordable housing sector.

Credit Guarantee Trust Fund will be set up to ensure better flow of institutional credit for housing loans.

The limit of indirect finance under priority sector enhanced from Rs. 5 lacs to Rs. 10 lacs

Investment linked deduction of capital expenditure incurred in the Affordable Housing businesses enhanced to 150% from 100% earlier.

CORPORATE OVERVIEW

Repco Home Finance Ltd (RHFL) provides a variety of home loan products for construction and/or purchase of residential and commercial properties including repairs and renovations ("Individual Home Loans"). The company caters to individual borrowers in both the salaried and non-salaried (self employed professional and self employed non-professional) segments. Apart from extending home loans, RHFL also offers loans against properties (LAP).

Network Strength

RHFL has 92 branches and satellite centres (as on 31st March 2013) spread across Tamil Nadu, Karnataka, Andhra Pradesh, Kerala, Maharashtra, Odisha, West Bengal, Gujarat and the Union Territory of Puducherry.

A Unique Marketing Strategy

RHFL's marketing strategy is built on loan camps, local advertising and marketing, and word of mouth referrals. Each of the branches conduct loan camps once every 2-3 months within a 20-25 km radius of their location. As a result, most of the customers are either "walk-in" borrowers or referred by existing borrowers. The branch offices act as single point of contact for customers. The branches are responsible for sourcing loans, carrying out preliminary checks on the credit worthiness, providing assistance in documentation, disbursing loans and in monitoring repayments and collections. Direct marketing and customer contact ensure greater transparency, ownership and efficiency.

FINANCIAL ANALYSIS OF OPERATION

Disbursements and loans outstanding

During the year ended 31st March 2013, RHFL sanctioned loans amounting to Rs. 1,285 crore against Rs. 1,112 crore in the previous fiscal year. Loan disbursements during year were Rs. 1,167 crore as against Rs. 1,042 crore in the previous year. The average home loan size was Rs. 9.8 lacs during FY13 as against Rs. 8.9 lacs in the previous year.

During the year, RHFL's total outstanding loan book increased to Rs. 3,545 crore from Rs. 2,804 crore, registering a y-o-y growth of 26%. The Company registered a compounded annual growth rate of 38% during the period 2008-09 to 2012-13. The growth in the loan book was driven by new customer additions, expansion of branches and satellite centres, and increase in the average loan size. As of 31st March 2013, all outstanding loans were on floating rate of interest.

Outstanding home loans to individuals amounted to Rs. 3,017 crore (85.1% of total loan book) and loan against property amounted to Rs. 528 crore (14.9%). Loans to

non-salaried and salaried segments constituted 53.9% and 46.1%, respectively, of the total outstanding loan book. RHFL has not been reliant on highly competitive salaried segment and focuses on self employed segment. Direct customer contact, tailored approach and personal evaluation processes has enabled the company to tap this segment.

The average yield realized on loan assets as on 31st March 2013 was 12.32% (previous year – 12.53%).

Sanctions and Disbursements (in Rs. crore)

Outstanding loan book (in Rs. crore)

Funding sources

RHFL raises its resources through a variety of sources, including term loans from scheduled commercial banks, refinance from NHB and borrowings from promoter, Repco Bank. As of 31st March 2013, borrowings from the banks accounted for 51% of the resources, refinance from NHB accounted for 37% and the remaining 12% was raised from the Promoter, Repco Bank. The outstanding borrowing stood at Rs. 3065 crore, up from Rs. 2486 crore in FY12.

During the year under review, the Company raised Rs. 698 crore by way of term loans from banks. As at 31st March, 2013, the total term loan outstanding stood at Rs. 1,550 crore. Under the National Housing Bank's Refinance Scheme, the Company availed an amount Rs. 179.97 crore during the year. RHFL's term loan is rated "ICRA A+" with stable outlook.

As of 31st March, 2013, 32.28% of existing borrowings were on fixed interest rate and 67.72% of borrowings on floating interest rate. It is our endeavour to maintain prudent mix of fixed and variable rate borrowings, to minimize the average cost of borrowing and maintain a healthy spread. The weighted average cost of borrowing during the year was 9.57% as against 9.42% in the previous year.

Initial Public Offering (IPO)

In March 2013, RHFL successfully raised Rs. 270 crore through issue of 1.57 million shares at a price of Rs. 172 per share. The issue saw strong interest from long-term institutional investors including mutual funds and foreign institutional investors (FIIs) with Qualified Institutional Buyer (QIB) portion being oversubscribed by 3.39 times.

Post the IPO, RHFL is focusing on diversifying sources of funding and tap into alternative sources (fixed deposits, multi-lateral agencies and rated listed debt instruments) to strengthen balance sheet and optimize funding costs.

RHFL's Capital Adequacy Ratio (CAR) as at 31st March 2013, was 25.5% as against NHB's prescribed limit of 12%. This consists entirely of Tier 1 capital.

PROVISION FOR CONTINGENCIES

As per prudential norms prescribed by NHB, RHFL is required to carry a provision of Rs. 3.12 crore on standard assets and Rs.5.88 crore on non performing loans for the financial year 2012-13. The Company carried a provision of Rs.15.01 crore on standard loans and Rs.17.7 crore on NPAs as at 31st March, 2013, RHFL's net NPA was Rs. 34.8 crore (0.99% of the portfolio) as at 31st March, 2013.

Due to the nature of its borrowers, RHFL faces significant variability in NPA profile quarter to quarter due to lumpy income profile of the non-salaried segment, so NPAs look high in some quarters. However, variability in NPA profile does not reflect the asset quality given conservative underwriting policies of the Company. RHFL has, since inception, written off loans aggregating Rs. 3.94 crore only, a mere 0.08% of total cumulative disbursements. This is a reflection of robust risk management policies of the Company.

Under the Negotiable Instruments Act, 1881 & SARFAESI Act, 2002, RHFL has instituted proceedings in 466 cases and implemented successfully & loan outstanding collected in full in 302 cases.

Investments

As at 31st March, 2013, the Company's investment portfolio stood at Rs. 8.05 crore (previous year: Rs. 8.05 crore) in the form of investment in associate companies - Repco Infrastructure Development Company Limited and Repco MSME Finance and Development Limited. The Company classified its investments as long term investments and current investments. In respect of long-term investments, provisions were made to reflect permanent diminution in investment value.

Risk Management

Risk management forms an integral part of RHFL's business. The Company manages various risks relating to the housing finance business such as volatility of demand for housing and housing finance, availability of funding at competitive rates, asset-liability mismatches (in terms of interest rates and liquidity), amongst others. The objective of the Company's risk management system is to measure and monitor the various risks and to implement policies and procedures to address such risks.

The critical risks which can significantly impact business and financial profitability are credit risk, interest rate risk and liquidity risk.

Credit risk: A risk that a borrower will default on any type of debt by failing to make payments which he/she is obligated to do.

Mitigation:

- RHFL follows structured and standardized credit approval process: personal interview by branch manager, property site & business premises visit, scrutiny of income documents, valuation and legal opinion from independent experts, and linking interest rates to credit score
- Conservative lending metrics: loan to value (LTV) 65% and income to installment (IIR) 50% in FY13
- Same person involved in origination, appraisal, monitoring and recovery
- Ongoing monitoring: annual inspection of each branch by internal inspection team, internal audit, periodic inspections of secured properties and monthly & periodic review meetings

Liquidity and interest rate risk: Liquidity risk is the inability to meet financial commitments in a timely manner. Interest rate risk, if unmanaged, may adversely affect financial condition and ultimately a company's earnings by way of change in net interest income.

Mitigation:

- The Company has formulated an asset liability management (ALM) policy which lays down mechanisms for assessment of various types of risks and altering the asset-liability portfolio in a dynamic way in order to manage such risks
- Regular monitoring of maturity profile by Asset Liability Management Committee (ALCO), a strategic decision making body constituted by Board, which comprises managing director, executive director, general manager-credit and deputy general manager-accounts of the Company.

Strengths, Opportunities & Threats

Strengths

- Focus on under penetrated markets & segments: (1) target segment comprises of self employed professionals and self employed non-professionals and (2) financing customers in tier 2 & 3 cities and peripheries of tier 1 cities

- Established presence in the housing finance market in South India with 90% of total 92 branches and satellite centres located in this region
- Direct marketing and customer contact ensuring greater transparency, ownership and efficiency
- Low cost of operations, through lean branch model, centralized loan process, no DSA sourcing
- Robust risk management processes and checks at every step of loan process ensuring good asset quality
- Experienced senior management team and their long standing association with the company

Opportunities

- The opportunity for housing financiers continues to remain large given multiple growth drivers: continued urbanization, housing shortage, low penetration, increasing nuclear families, government incentives, etc.
- Self employed (including professionals and non professionals) constitute 51% of the workforce; however, banks and large HFCs focus on salaried segment due to ease of appraisal. leaving a lot of room for the niche housing finance players like RHFL.
- Tier 2 and 3 cities are largely ignored by banks and larger housing finance companies, thereby providing a good opportunity to lenders with lower cost of operations and a good understanding of these markets to expand their operations.

Threats

- Adverse regulatory changes could impact the overall business and financial profile of the company
- Currently subdued business environment, which coupled with high interest rates, notwithstanding some correction in the recent past, could exert pressure on business growth and profitability
- Sizeable exposure to self employed segment; could exert pressure on the Company's asset quality under unfavorable economic conditions

Outlook

Going forward, RHFL intends to grow loan book and profits with increased market presence through the following initiatives:

- Continued focus on underserved non-salaried segment in tier 2 and 3 markets; increased penetration through better customer engagement
- Deeper penetration in Southern region markets and expansion in other regions with 2/3rd of new branches in South and remaining in other regions
- Maintaining strong asset quality through continued focus on risk management
- Accessing low cost and diversified sources of funds
- Maintaining low operating costs
- Stable net interest margins and returns

Internal Audit & Control

The Company has in place organized and effective internal control systems. The Company has a panel of external chartered accountant firms that carry out internal audits on a half yearly basis and such internal audit typically covers 75% of branches' business on an annual basis. There are stringent systems in place to ensure that the assets and property of the Company are properly utilized in the interest of the Company. The Internal Control Systems and Internal Auditors' Reports

are reviewed by the Audit Committee (comprising four independent directors) so as to ensure transparency and proper compliances.

Information Technology

The Company's ability to operate and remain competitive depends in part on its ability to maintain and upgrade information technology systems and infrastructure on a timely and cost-effective basis, including ability to process a large number of transactions on a daily basis.

Human Resources

The Company believes in attracting, nurturing and retaining a qualitative workforce to accomplish the desired objectives. To achieve this, RHFL provides the necessary internal and external training to keep employees in tune with prevailing benchmark practices in the housing finance segment. The Company provides a professional work environment and maintains a healthy relation with its employees. As on 31st March, 2013, the number of people employed by the Company stood at 382.
